

Purchasing Equipment Just Got Easier

✉ equipment@uptimeservices.com

The tired days of research, planning, and designing are gone. Purchasing equipment for your dental practice just got easier.

Partnered with the best name brands in the industry

Cabinets

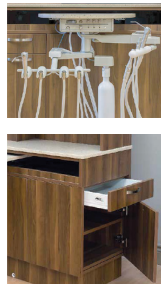

Dental EZ Imagine Rear Dental Operatory Cabinet

- Enhance Workflow Efficiency and Organization with Dental Operatory Cabinets.
- Functional, stylish cabinets to optimize daily operations.
- Seamless organization and workflow efficiency.
- Focus on providing excellent patient care.

Belmont Flex Series System

- Freestanding pass-through consoles with structural steel bases.
- Removable panels to integrate various systems seamlessly.
- Pullout shelf for additional work surface.
- Soft close doors and drawers.

MCC Dental Cabinets

- “Green” construction cabinet make them LEEDs compliant.
- Maximized functionality with all cabinet spaced designed to be useful for provider and assistant.
- A cost efficient alternative that will fit your budget and space perfectly.

Midmark Dental Cabinets

- Design flexibility to match your practice environment.
- Enduring quality and strength.
- Extensive collection of clinical-grade cabinetry engineered for the rigors of the healthcare.

Operatory Equipment

Streamlined equipment design and layout eliminate clutter, maximize space, and enhance flexibility, empowering your entire office to work at peak efficiency.

Chair, Delivery Unit, & Light Solutions

Summit Operatory Package

- Simple and Quite operation using German motors.
- Auto return and last position functions.
- Multiple delivery unit mount and integration options.
- Precise LED light pattern with motion activated sensors.
- Wi-Fi technology to simply diagnosis and troubleshooting for technicians.
- 5 year warranty.

Belmont Operatory Package

- Thin backrest for a better working posture and easier scope of oral cavity.
- Shockless movement for smoother transitions between treatment positions.
- Smooth performance which simulates natural body movement.
- Armrest swing outward 130° to create a wider entry and exit area for patient convenience.
- 7 year warranty.

Forest Dental Operatory Package

- Designer friendly colors and configurations.
- Ultraleather is standard.
- Durable finishes and metal components instead of plastic for maximum value.
- Delivery units have life time warranty on components “under the hood”.

Midmark Operatory Package

- Operatory equipment designed to promote proper posture.
- Delivery systems designed for simple integration of a scaler, curing light, intraoral camera and up to two electric motors.
- Get exceptional clinician access to the patient with a chair back that is narrower and 40% thinner than a standard chair back.

Seating Solutions

Brewer Dental Stool

- Full line of ergonomic solutions to meet your specific needs.
- Provides correct weight distribution to promote muscular health.
- Freedom of movement models to elevate your comfort.

Crown Dental Stool

- Neutral positioning elevates posture for enhanced comfort.
- Traditional and saddle options.
- Distinct anatomically designed seat conforms to the natural shape of the body.

Belmont Dental Stool

- Ergonomic control provides ideal support, preventing muscle fatigue and minimizing pressure points.
- Backrest cushion height adjustment provides optimal lumbar support to suit the preference of each operator during procedures and consultations.
- All stools are equipped with hard-floor surface type casters to provide smooth movement with chrome metal hoods for protection against accidental damage.

Midmark Dental Stool

- Ergonomically refined to promote better posture.
- Backrest supports the lower back to reduce fatigue.
- Optional armrests to support elbows for a neutral shoulder position.

Panoramic and 3D CBCT Solutions

DEXIS OP3D

- Built on OP 3D technology, this multimodality imaging platform expands your 3D diagnostic capabilities with a wide range of clinical applications that support your evolving practice and enhance diagnostic confidence.

Acteon X-Mind Optima 3D

- Remarkably Compact: Zero-footprint design optimizes space and accessibility.
- Remarkable Clarity: Advanced detector and 90 kV range deliver exceptional diagnostics.
- Empowered by AI: RealGUIDE™ 5.4 integrates AI for enhanced patient care.

PreXion Excelsior Max 3D

- Offering the clearest, most precise image in the industry at an incredible price point.
- 3D image sizes up to 16 x 21 cm.
- Unmatched commitment to education through Catapult Education and many nationwide events.
- Up to 10 year warranty on specific models.

Ray America Quantum 3D

- Offering a wide range of imaging solutions from entry level to the most advanced 3D planning.
- 3D image sizes up to 20x20 cm.
- 10 year warranty on all CBCT equipment.

Wall Mounted Imaging Solutions

Belmont PHOT-xIIs

- 60kv for bone structure and general caries detection exams.
- 70kv for pediatric and periodontal exams.
- .4mm focal spot for highest clarity.
- LCD touch screen for to simplify controls, easy setting adjustment, optimal sensor settings, and trouble shooting.
- 5 year warranty.

Acteon X-MIND Wall Mount x-ray

- Reliable X-RAY technology that reduces radiation exposure.
- Sharp and contrasted images.
- High versatility.

Air Techniques ProVectra HD

- Generator head handle allows precise positioning that stays in place.
- Right-angle/parallel technology for precise alignment.
- Adjustable mA and kV levels.
- Optional rectangular radiation field collimator.
- DC technology allows constant radiation levels to ensure reliable image quality.

Midmark Preva DC Intraoral

- Great imaging clarity with a 0.4mm focal spot.
- Ease of use with simple to use LCD control panel.
- Ergonomic movement with dual-arm braking system and effortless movement.

Mobile X-Ray Solutions

Phoenix Imaging Remedi Remex T-100

- Ergonomic camera grip design prevents operator fatigue.
- It's lightweight - only 4.7 Lbs.
- 70Kv provides the best IO X-ray image quality.
- Long battery life offers 400 exposures in one charge.
- Quick 15 minute recharge for full FMX imaging.

Digital Doc XTG-1000

- Low patient exposure.
- Guitar style strap for ergonomic use.
- Portable for multiple operator use.
- Easy to learn and use.
- .4mm focal spot for high resolution.
- 1 year warranty with extended plans available.

Maxray Cocoon

- Easy (1) handed operation.
- Innovative voice prompting display.
- High capacity battery enables up to (500) exposures on one charge.
- .4mm focal spot for high resolution.
- 1 year warranty with extended plans available.

DEXIS NOMAD Pro 2

- The higher-capacity battery technology keeps pace with the demands of busy dental practices.
- Ergonomic design innovations make the shape and weight dispersion of the device more stable in your palm.
- The unique, acrylic shield protects the operator from direct and scatter radiation.
- The internal proprietary housing encases the X-ray tube and backscatter shield to block radiation leakage.

Phosphor Plate & Sensor Solutions

Air Techniques ScanX

- Enables easier placement with flexible plates and multiple sizes.
- Provides more mesial-distal information and root tip or distal cusp.
- Exceptional diagnostic clarity.
- Easy and simple workflow.
- 2 year warranty.

Acteon Sopix Sensor

- Rounder edges and corners for patient comfort.
- ACE technology limits x-ray over exposure.
- FIBER2PIXEL technology for accurate images and striking contrast.
- Size 1 and 2 are available.
- 5 year warranty.

Sota Clio Sensor

- Next Generation Fiber Optic Sensor for high resolution.
- Direct USB connection (no docking stations).
- Largest active area sensor face vs. competitors.
- Fully waterproof sensor.
- Sensor cable is replaceable.
- 5 year limited warranty.

DEXIS Ti2 Sensor

- High clarity images with expanded dynamic range.
- Perfect size sensor to fit every patient.
- Proactive monitoring and support to help your practice run smoothly.

Sterilization Cabinets

Symmetry Sterilization Console

- Quick, simple, and economic.
- Cleans and lubricates up to 3 handpieces at 1 time.
- Multi cleaners used to properly remove impurities and properly lubricate handpieces.
- Drastically extends service life of handpieces.

Belmont Sterilization Console

- Built in color designating lighting system to support proper flow of instrument processing.
- Hands free sink system.
- Pull out hidden platform to aid in reaching upper storage.
- Water resistant materials to avoid damage from chemicals or steam sterilization.

MCC Dental Sterilization Console

- Solid surface cladding in sterilization tower to prevent moisture/steam damage.
- Pull out shelves standard in sterilization tower.
- Pull out step for upper cabinets.
- Wide range of colors for cabinets and countertops.
- 2 year full warranty.

Midmark Sterilization Center

- Proper workflow supporting CDC guidelines to ensure patient and staff safety.
- Intuitive movement of instruments in a single direction to create a distinct separation from dirty to sterile.
- Soft-close, full-extension, ball bearing glides for durability and ease of use.

Handpiece Maintenance Solutions

Bien Air Lubricare 2 Maintenance System

- Quick, simple, and economic.
- Cleans and lubricates up to 3 handpieces at 1 time.
- Multi cleaners used to properly remove impurities and properly lubricate handpieces.
- Drastically extends service life of handpieces.

NSK iCARE Maintenance System

- Stainless construction for performance and longevity.
- Digital time to accommodate multiple sterilization techniques.
- Includes heat feature to increase efficiency.
- Multiple size options.

Kavo QUATTROcare™ Plus

- Automatic handpiece maintenance and purging system.
- Fast and efficient: It takes just one minute for each maintenance cycle if you are processing four instruments, and the entire process is controlled via a program and automated.
- Safe, controlled cleaning and purging procedure.
- Flexible programming allows setting of total cycle time from 20-45 seconds per handpiece.

Ultrasonic Cleaning Solutions

BioSonic UC Series

- Complete Ultrasonic Cleaning System – Includes three different cleaner unit sizes to fit various needs.
- Versatile Cleaning Solutions – Offers a full line of specialized cleaning solutions for different applications.
- Comprehensive Accessories – Includes unit accessories to enhance cleaning efficiency and usability.
- Flexible & Efficient Cleaning – Designed to clean and disinfect instruments, prostheses, and other items effectively.

Brandmax Ultrasonic Cleaning System

- Stainless construction for performance and longevity.
- Digital time to accommodate multiple sterilization techniques.
- Includes heat feature to increase efficiency.
- Multiple size options.

L&R Quantrex® Series

- Designed & Manufactured in the USA – Ensures high-quality craftsmanship and reliability.
- 30-Month Warranty – Provides years of dependable, worry-free cleaning.
- Optional Heater Heads – Heats solutions up to 145°F to break down waxes, oils, and baked-on debris.
- Versatile Accessories – Includes a variety of accessories, such as accessory blankets, for enhanced functionality.

Midmark QuickClean Ultrasonic Cleaners

- A digital LCD control panel that displays prompts.
- Options for preset or customized settings.
- Built-in data storage that retains the previous cycle settings.
- A fluid sensor that detects insufficient water level in the bath and alerts the operator.
- 3-year limited warranty.

Chamber Autoclave Solutions

CPAC RH-N95 Autoclave

- Decontaminates N95 Respirator Masks for multiple use.
- Decontaminates up to 100 masks per hour.
- No chemicals or water required.
- Can be converted to the standard RH-Pro11 sterilizer.

Tuttanauer T-Top 10 Autoclave

- C21 Liter Large Chamber Capacity.
- Class S Sterilizer (Closed-Door Drying).
- T-Connect: Advanced Remote Diagnostics.
- Short Cycles.

STATCLAVE® G4 Chamber Autoclave

- Built with the reliability and trust of STATIM.
- Designed for speed, capacity, and efficiency in your practice.
- Chamber autoclave with pre-sterilization vacuum for improved steam penetration.
- Post-sterilization vacuum for enhanced drying.
- Features an 11" chamber for optimal sterilization.
- Vacuum-assisted closed-door drying for efficiently dried wrapped instruments.

Midmark Next Generation Steam Sterilizers

- Durability rating cycle life of 25,000 cycles.
- Navigate cycle setup and other processes with a clear, fingerprint-resistant 5-inch touchscreen you can utilize while wearing gloves.
- Stay audit-ready with device reminders and notifications, user authentication, unlimited storage of routine care events for the life of the sterilizer and automated cycle record keeping.

Cassette Autoclave Solutions

Enbio S

- 2 Year Warranty.
- Only 15 minutes to sterilize and dry.
- Worlds fastest Class-B sterilizer.

SciCan Statim 2000 & 5000 Autoclave

- World's Fastest Cassette Autoclave from Start to Sterile.
- Gentle steam process to ensure longevity.
- G4 Technology monitors sterilization cycles, performance , and maintenance reminders.

Instrument Disinfector Solutions

Miele Dental Washer - Disinfector

- AutoOpen Function for fast drying results at the end of reprocessing.
- Per use costs significantly less than competitors maximizing your investment.
- Integrated dispenser pump for optimized cleaning of instruments.
- Simple “touch-and-go” process simplifies use.

Tuttnauer TIVA 2 Washer - Disinfector

- Color display giving 40 programs covering all of your office needs.
- Fresh water with every cycle with ETS programming.
- Air drying prefilter + HEPA H14 filter ensures that your instruments are thoroughly dried.
- Glass view door to quick monitoring of instrument processing.

HYDRIM L110W G4

- Full-size cassette capacity, cleaning up to 2,500 instruments in a 10-hour day.
- Eliminates manual steps like pre-soaking, scrubbing, and drying.
- G4 Technology: WiFi-enabled for cycle data, maintenance, and service logs via smart devices or computers.

Amalgam Separation Solutions

NXT Hg5 Amalgam Separator

- Device designed to capture amalgam & other heavy metals from dental office wastewater.
- Required by EPA for use in all dental offices.
- Accommodates up to 10 operatories.

Rebec Environmental Amalgam Separator

- Designed for tight spaces.
- Built to last of rugged stainless steel, not plastic.
- Will not reduce vacuum.
- Over 99% removal efficiency.
- Limited Lifetime Warranty

MARS Bio-Med Liberty Boss

- Maintenance-Free Operation – No maintenance required for up to 3 years.
- No Filter Changes – Eliminates the hassle of replacing filters.
- EPA-Compliant – Meets current EPA standards for mercury reduction.

Air Compressor Solutions

Air Techniques AirStar Compressor

- Full color touch screen with intelligent controls for trouble free performance.
- NEO Pulse software for monitoring for maintenance reminders and function.
- 100% oil-free, dry air performance.
- Exclusive membrane dryer technology quadruple filters for the driest, cleanest air.

Ramvac AERAS Compressor

- Performance and maintenance reminders sent via email or text.
- Dual Dessicant Dryer Technology prevents bacterial growth by strong air at a dew point of -40 degrees.
- High-Pressure option is perfect for practices that have implemented a milling machine.
- 8 Year warranty.

MGF Compressor

- Delivers high-quality, oil-free air for patient safety and effective treatment.
- Compact design for easy installation and integration into any dental practice.
- Suitable for both new setups and existing clinics.
- Ultra silent.

Midmark PowerAir Compressor

- Oil-less Industry-leading performance.
- 0.01-micron coalescent filter designed to provide the ultimate in clean air, generating the capacity to capture up to 99.9997% of compressed air contaminants.
- Quiet operation.
- 5-year/3,500-hour product warranty.

Vacuum Solutions

Air Techniques Mojave Dry Vacuum

- Oil-free motor VFD pump for quite performance.
- Axial flow impeller saves 85% of water versus conventional wet ring vacuum systems.
- On demand suction modulates based on need to save energy.
- 2 year warranty.

Ramvac Dry Vacuum

- 100% water free operation on the vacuum.
- High efficiency vacuum pump produce little mechanical room heat and low energy cost.
- 100% duty cycle on compressor heads for maximum output.
- Dual column desiccant dryer provides extremely dry and clean and air.
- 6 year warranty on compressors.
- 10 year no fail warranty on vacuum pump.
- Get alerts and maintenance notifications so you can stay ahead of potential problems.

Tech West Dry Vacuum

- Some of the strongest warranties in the industry (3-10 Year Warranties).
- Nationwide dealer network ensures service in your area.
- Vibration free dental compressors that produce clean, dry, and oil free air.
- Dental Vacuums that provide consistent air flow for your patients regardless of the number of users.

Midmark PowerVac Dry Vacuums

- PowerVac G model reduces up to 83% electricity.
- An industrial-grade, rotary-claw pump technology to withstand the rigors of dental practice needs.
- Whisper-quiet operation – noise level as low as 48 dBA on G models.
- Upgradeable to accommodate 1-20 users.
- Unmatched product warranty – 5-yr/10,000 hr full-product; 10-yr/20,000 hr pump warranty.

Handpiece Solutions

Bien Air Handpiece

- Anti-retract valve to minimize cross contamination.
- Optional “Cool Touch” technology to promote patient safety.
- Great balance of technology, ergonomics, and reliability.
- Full line of air, electric, and surgical systems.

NSK Handpiece

- Oil-free motor VFD pump for quite performance NSK.
- Widest range of dental rotary instruments, dental motors and small equipment in the world.
- PICO options available for pediatric.
- Electric models offer Flexible Installation Style with Superior Visibility & Operability in a Compact Design.

KAVO Handpiece

- Enhances efficiency and boosts confidence in handling complex cases.
- Improves patient care with advanced technology.
- Combines state-of-the-art handpieces, a lightweight motor, and the ELECTROMatic™ dual motor system for optimal performance.

Small Equipment

Reliable, efficient, and easy to use—our nitrous oxide systems and small dental equipment help create a comfortable experience for both patients and practitioners.

Small Equipment Solutions

Accutron Nitrous System

- Precision control and consistent performance.
- Options for built in or mobile options.
- Compatible with autoclaveable and disposable nasal hoods.
- All Accutron flowmeters carry a 2-year warranty – the longest flowmeter warranty in the dental industry.

Porter MXR-D Flush Mount Nitrous Oxide Flowmeter

- Only flowmeter with both a digital display and calibrated glass indicator tubes for accurate flow readings.
- Ergonomic single-motion control knobs for easy flow and percentage adjustments.
- Midas model adds exportable logs and remote app control option.

Air Techniques FlowStar Nitros Oxide Flowmeters

- Easy-to-use touchscreen saves time.
- Automatic fail-safe protection to shut off nitrous when there's a loss of oxygen for patient safety.
- Acoustic and visual information signals for patient safety.
- Auto-compensating feature controls total gas flow when adjustments are needed, saving time and money.
- Positioning of gas delivery and Scavenging control for more flexible installations.

Hu-Laser K2 Mobile Laser

- Designed for user convenience and cost-effectiveness.
- Features an autoclavable aluminum head.
- Includes custom optic fibers for precision.
- Soft silicone front cover for durability and comfort.
- Handheld mobile laser with advanced capabilities.

Hygiene Equipment Solutions

NSK Varios Series

- Slimmest and lightest* handpiece with LED illumination.
- iPiezo engine ensures stable power output and performance.
- Twin LED lights through twin optical glass rods.
- Optic and non-optic handpieces available.
- Extensive tip range for a wide range of applications.

Acteon Piezo NEWTRON

- NEWTRON® technology, which brings more preservation, efficacy and comfort to any procedure.
- Optional integrated unit for a clutter free delivery unit.
- LED light provides fantastic illumination.

Dental EZ Aeras iSTAR

- Cordless prophy enables freedom of movement in the operatory.
- Sealed system with custom disposable barriers facilitate proper infection control.
- Compatible with most disposable prophy angles.

EMS GBT Ready Airflow® Prophylaxis Master

- Guided Biofilm Therapy (GBT) for managing oral biofilm and calculus in prevention, therapy and maintenance of oral health.
- Piezo dynamic power regulation system progressively adapts to the type of calculus and regulates the power accordingly.
- Easily adaptable power and water settings, standard GBT settings as well as intuitive symbols offer an improved workflow, optimized powder consumption and an enhanced patient experience.

Air Equipment Solutions

Vaniman Pure Breeze HEPA Air Purifier

- Adds 2-3 ACH to a standard room up to 1,000 square feet.
- Improves indoor air quality (IAQ) for improved productivity, cognition, and morale.
- Portable (can be moved from room to room)
- Built to last for decades.

VidaShield UV24

- VidaShield UV24 is a fast, 24/7, active air purification system that uses UV-C to reduce bacteria and fungi from the air. Simply wire it up, plug it in and you are on your way to treating the air.

Vector Vortex

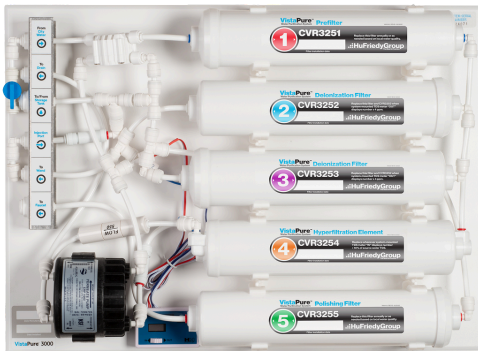

- Strong suction pump ensure high vacuum.
- Compatible for negative pressure compliance.
- Ergonomic design easily navigates oral cavity.
- Low noise blends in with handpiece use.

Water Treatment Solutions

Crosstex Dentapure

- Ensure dental unit waterline safety. The untreated procedural water in your dental unit waterlines is contaminated. Removal or inactivation of DUWL biofilms requires use of chemical germicides.

Vistapure V3000

- Easily provides two grade of high-quality water for filling steam sterilizers, dental bottles, ultrasonic cleaners, and the final-rinse cycle of compatible instrument washers.
- Connects directly to city water supply to produce filtered water.

Sterisil AC+

- Produces autoclave water for areas with <500 PPM TDS.
- Includes sink-top dispensing faucet or filler wand for easy autoclave filling.
- Connects to municipal water supply and produces up to 50 gallons/day of distilled-quality water.
- Ideal for instrument washers, autoclaves, and dental bottles.
